*Oklahoma State Regents for Higher Education require all students to complete at least 60 credit hours from a senior (4-year) college. Because 69 credit hours are required to graduate with the AS in Mechanical Engineering from TCC, students will graduate from OSU with 126 or more credit hours.

This plan is only one example of how a student may successfully complete degree requirements in four years. Students are responsible for completing the requirements as given in the official degree requirements sheet.
