TRANSFER MAP

## Associate in Science in Physics (Tulsa Community College) to Bachelor of Arts in Physics (University of Tulsa)

**Total Transfer Credit Hours at TCC (61) + Total Credit Hours at University of Tulsa (63) = 124 Hours**

**Catalog Year:** 2020-2021 and 2021-2022

**Modalities Available (On-Campus, Online, Blended):** On-Campus

**University Campus Location:** University of Tulsa, 800 S Tucker Dr, Tulsa, OK 74104

**Note to Students:** Transfer Maps provide a semester by semester guide from TCC to a university program showing course equivalency. This university transfer map is based on a full-time academic load of 30 credit hours per year, but can be adjusted to fit a part-time schedule. To ensure maximum transferability of credits, please work with your TCC advisor and your transfer university to ensure you are taking the correct courses to transfer on-time and on-track. Students are responsible for completing requirements in the official degree sheet for each major.

## TRANSFER MAP

**\*NOTE 1:** Additional preparatory course work may be required if students do not meet a minimum placement score on a secondary placement test. In this case, the total credit hours required to complete the degree will exceed 60. If additional Math is required, it will fill any open General Education electives. If General Education electives have already been met, then this degree could require up to 65-66 hours to complete. See your academic advisor for more information.

**\*\*NOTE 2:** TU requires 14 credit hours of a foreign language for this degree. Students can choose to begin the foreign language sequence at TCC with open electives, but should be aware this option will increase the overall credit hours for completion. Discuss the best option for planning your foreign language courses with your academic advisor or send questions to the TU Center for Academic Advising ([advising@utulsa.edu](mailto:advising@utulsa.edu)).

### TU Tuition Costs:

- Full-time students pay a flat tuition rate each semester they are enrolled in 12 - 18 hours. Any semester where a student is enrolled in 11 hours or less is billed per semester hour. Any semesters with an approved overload above 18 hours has additional tuition costs on top of the flat tuition rate to cover the additional hours. Tuition costs and associated student fees are posted online at [Tuition & Costs - The University of Tulsa \(utulsa.edu\)](#). The degree map above has been divided to maximize enrollment versus tuition cost each semester. Students that choose to enroll in fewer than 12 hours or more than 18 hours in any particular semester should be prepared for different tuition costs.

## TCC Milestones and Recommended Actions:

- **Consider Summer Courses:** Summer courses at TCC can help accelerate your time to transfer, and help you stay on track. Talk to your advisor about planning summer courses.
- **During or After Year One at TCC:** Consider a campus tour of University of Tulsa and connect with a TU academic advisor, to ensure you are on track to transfer. Your TCC academic advisor can assist in planning these actions.
- **During Year Two at TCC:** Apply for admission at University of Tulsa as a transfer student (<https://admission.utulsa.edu/apply/transfer-applicants/>).
- **Final Semester at TCC:** Congratulations you are about to earn your A.S. in Physics! Be sure to apply for graduation @ <https://www.tulsacc.edu/student-resources/graduation>.
- **Transcripts:** Submit an official TCC transcript to TU ([www.tulsacc.edu/student-resources/student-records/requesting-and-submitting-transcripts](http://www.tulsacc.edu/student-resources/student-records/requesting-and-submitting-transcripts)).
- **Reverse Transfer:** If you have not earned an Associate in Arts or an Associate in Science from TCC, and have completed 60 credit hours, with 15 of those hours completed at TCC, email [reversetransfer@tulsacc.edu](mailto:reversetransfer@tulsacc.edu) to see if you qualify for a degree through the Reverse Transfer program.

## TU Program Information:

- After matriculating into TU, a student must complete the physics major with a grade point average of 2.0 or higher as well as an overall grade point average of 2.0 or higher in order to graduate.
