Credit hour Calculation:

**Typical Credit:** MWF 50 min = 150 min x 16 wks = 2400 min or 40 hrs

For every hour in the classroom, a student is to spend 2 hrs outside of the classroom = 80 hrs

40 hrs (classroom) + 80 hrs (outside) = 120 hrs for a 3 credit hr course

Credit hour Calculation:

contact hours / 120x3

Total Contact hours /40 = Credit hours awarded

where 40 = 50 minutes for each class session x 3 class sessions per week x 16 weeks per semester
